PARK.SWISS

INFRASTRUCTURE AS A SERVICE.

GETEC PARK.SWISS

THE INDUSTRIAL PARK OF TOMORROW

SMART, GREEN, EFFICIENT

TRANSFORMATION OF THE CHEMICAL AND LIFE SCIENCES INDUSTRIES

The chemical and life sciences industries are both in a state of upheaval. The industries are consolidating, decarbonization and digitalization are playing a decisive role in strategic decisions and in the future development of business segments. Competition and cost pressure are increasing. The market and consumers also demanding sustainable and affordable products from a zero impact production. Chemical and life sciences companies therefore want to be able to concentrate to an ever-greater degree on their core business and thus need service providers that can deliver the entire spectrum of infrastructure services efficiently, economically and sustainably.

THE GETEC PARK.SWISS IS YOUR SPECIALIST AND COMPETENCE CLUSTER FOR ENVIRONMENTALLY-FRIENDLY, SAFE AND EFFICIENT FULL-SERVICE INFRASTRUCTURE. WE ACCOMPANY YOU ON THE PATH TO ZERO IMPACT PRODUCTION.

GETEC PARK.SWISS

OPTIMAL CONDITIONS FOR YOUR COMPANY

GETEC PARK.SWISS near Basel brings together all the infrastructure services, amenities and expertise of the formerly separate industrial parks in Muttenz, Schweizerhalle, forming a comprehensive production and competence centre for the life sciences and chemical industries. With its trimodal connections and central location in Europe at the Basel life sciences cluster, the park offers the perfect environment for international companies that are active in research, development and production. The large number of multinational companies already located in the park makes it a valuable integrated site. The region has a talent pool with well-trained employees from all areas of expertise.

On 50 hectares, GETEC PARK.SWISS offers plots of land and real estate with optimal infrastructure and an ideal logistical location with road, water and rail connections. In addition to existing buildings that can be adapted to customer requirements, our customers can also be offered space that is currently available.

OUR SERVICES AT A GLANCE

Wastewater pretreatment

Your specialists for the pretreatment of industrial wastewater that contains poorly biodegradable or poorly degradable, toxic ingredients or heavy metals.

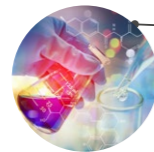

Wastewater purification

The entire cycle: Through our subsidiary ARA Rhein in Pratteln, industrial wastewater is biologically purified.

Analysis

Environmental, fine chemicals, consumer goods and REACH analysis – we offer our customers comprehensive and competent service with a wide range of laboratory analysis.

Energy generation

Sustainable energy generation through Waste2Energy along with all necessary operating resources and media directly on site. Economical, secure supply, efficient, environmentally friendly – and indispensable for modern zero impact production.

Engineering

Process engineering, mechanics, E&I – our engineering services accompany all infrastructure facilities at GETEC PARK.SWISS as well as our customers' production facilities over the entire life cycle. Our customers can concentrate on their core business.

Disposal

We sustainably close cycles with our waste-to-value approach, which is both ecological and economical: Our energy centre with waste incineration provides the necessary energy and mineralizes plant waste. Up to 56,000 tons of hazardous and industrial waste per year is converted into thermal energy.

Facility management

We deliver ideal infrastructural conditions, allowing you to focus entirely on your business.

Health, Safety, Environment & Quality (HSSEQ)

Competent and solution-oriented consulting for our customers in the areas of project planning as well as the operation of plants and warehouses and a unique full-service support even in complicated approval procedures.

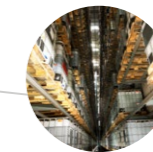

Solvent recovery

Sustainable solvent recovery even for large material flows. Used solvents are cleaned, products are reprocessed and the residues and waste gases are energetically recycled using the waste-to-energy approach.

Logistics

Inventory management with warehousing and combined intralogistics. Many years of experience in the handling of toxic, corrosive, flammable or explosive hazardous substances and dangerous goods. All this with optimal trimodal connections to rail, road and water for our comprehensive logistics services.

Maintenance

A comprehensive and manufacturer-independent service portfolio – from reliability & maintenance engineering through to professional plant service from our own specialist workshops. With extensive, efficient and demand-oriented maintenance processes from a single source, we help our customers make a significant contribution to optimum value creation.

„WE UNDERSTAND INFRASTRUCTURE AS A SERVICE. THE NEW GETEC PARK.SWISS OFFERS ITS CUSTOMERS THE ENTIRE SPECTRUM OF INFRASTRUCTURE SERVICES AND THE FASTEST APPROVAL PROCEDURES – ALL FROM A SINGLE SOURCE.“

DR. GUIDO ZIMMERMANN
CEO GETEC PARK.SWISS AG

YOUR ADVANTAGES

CO₂ reduction

Using our unique waste to value approach, we improve the sustainability profile of your company while at the same time increasing its value – also for the environment.

Cost savings

We align ecology and economic efficiency. With GETEC PARK.SWISS as a full-service infrastructure service provider at your side, you will substantially reduce the costs of your production.

Comprehensive efficiency

Taking a comprehensive approach, we raise targeted efficiencies and provide complete green solutions to increase your competitiveness.

Strictest safety and supply standards

The site complies with the standards of the Major Accidents Ordinance and provides maximum supply security for your production.

Fast approval processes

With our outstanding network and high safety standards, we ensure the fastest possible approval procedures and a rapid return on investment for relocations.

Partnership

Not only do we understand our business, we also understand yours. Your success is what drives us.

WITH OUR UNIQUE WASTE TO VALUE APPROACH, WE REDUCE THE CARBON FOOTPRINT OF OUR CUSTOMERS AND INCREASE THE VALUE CREATION OF THEIR COMPANIES.”

UDO LACKNER
COO GETEC GROUP

THESE COMPANIES HAVE GIVEN US THEIR TRUST

Your contact person

Become part of our unique network location and competence cluster. We want to support you in your goals and look forward to talking to you.
